Skills

- **Programming Languages:** Python | Dart | C++ | Java | JavaScript | TypeScript | HTML | CSS
- **Front End Web-Dev:** HTML | CSS | Tailwind | Bootstrap | JS | TS | Rest Api | React | Context Api | Redux toolkit | Zustand
- **REACT:** Hooks | Redux toolkit | Zustand | Context Api | Router DOM | FORMIK | Framer Motion | Axios | React Hook Form
- **Back End Web-Dev:** Nodejs | Express | Mongoose | MongoDB | JWT | Passportjs | Bcrypt | CORS | Cookies | NextJS | Redis | MVC
- **Others:** DSA | DAA | DBMS | OS | OOP | CCNA | Firebase | Appwrite | Problem Solving | PostgreSQL | Git | GitHub | Socket.io | Communication Skills | Kafka | Redis | Queues | DevOps | Kubernetes | Scalable Architecture Design | NeonDB | PostgreSQL | Prisma
- **Certificates:** Intern | COMPETE'24 | Coursera | micro1
- **Open Source Projects:** API Doc Generator (Vercel Hackathon) , GitQuest (40+ stars)
- **Freelancing:** NextJS + Spline task, Kanban Board

Education

COMSATS University Islamabad

- Bachelors of Science in Computer Science (ONGOING | CGPA: 3.48/4.00)

Islamabad College for Boys, G-6/3

- Pre-Engineering (HSSC)

Islamabad Model School for Boys, G-6/4

- SSC

Summary

AI First Full Stack Developer with expertise in MERN stack & NextJS, specializing in Frontend and Backend Development. Proven experience in delivering high-quality projects using ReactJS and NextJS. Strong work ethic and commitment to continuous learning. Seeking to contribute to a dynamic team focused on innovation and impactful solutions. 20+ Projects made out of which 7 went direct to production.

Experience

Junior Software Engineer

Svype

08/2025 - 09/2025

- Mainly worked as frontend developer, revamped the frontend of Serene Heights, developed Serene Lahore from scratch.
- Utilized NextJS, TailwindCSS, Framer Motion, Nodemailer (to setup emails) to revamp the existing frontend website.
- The major focus was to revamp the design, improve performance and speed of the website. Improved speed of site by 36%.

Full Stack Intern

Sybrid

06/2024 - 08/2025

- Developed frontend of kissan360, project by Sybrid, with ReactJS (Design from Figma), TailwindCSS, MantineUI, Redux, Formik, Yup.
- Gained expertise of developing frontend from Figma with attention to small details.
- The major focus was to clone exact Figma design pixel by pixel, website responsiveness with API calls to connect with backend.

Frontend Web Developer Intern

Devsinz

07/2024 - 08/2024

- Developed an e-learning platform Learnify as part of internship with ReactJS, TailwindCSS, Firebase and Firestore BaaS.
- The project included Admin and User Portals with multiple features like Auth, Course Creation, Enroll Course, Take Quiz, Certificates.

Projects

- **SkillNest (FYP):** AI Powered Learning Assistant, used NestJS (backend), NextJS (frontend), along with Groq LLM (API) for Quiz generation, Retention Quiz generation, Quiz Evaluation, Topic Overview generation. Embedding Models via Transformers for generating 384-dim embedding of resources to match with learner profile and AI Mentor RAG chatbot also uses the embeddings. NeonDB (postgresql) with PrismaORM for storing data, Cloudinary to upload files. Websockets for Real-time chat and video/voice call. Nodemailer to send and receive emails.
- **SmartFlex:** I used NextJS, Clerk, Vapi (Agent), Convex (DB), TailwindCSS, Gemini to build AI Powered Personalized Fitness Trainer.
- **VizioRoom:** I used NextJS, Clerk, Replicate API (Interior Designer), NeonDB, Appwrite, DrizzleORM, Paddle (Payments), TailwindCSS to build AI Powered Room Interior Designer.
- **Kissan360:** I built its frontend with ReactJS, MantineUI, TailwindCSS with Formik (Forms), Yup (data validation) and Redux (State).
- **EzyShopper:** I used ReactJS, TailwindCSS, MongoDB (+ aggregation pipelines), Mongoose, Express, Node, Redis (caching recommended products), JWT, Cloudinary, Stripe, Axios, Framer Motion, Zustand (state management). Fully E-commerce type shop.
